Bowen, Department of Biomedical Sciences, College of Veterinary Medicine & Biomedical Sciences, Colorado State University, Fort Collins, Colorado Multimedia Dental Anatomy of Llamas (Text & Images).

## Martindale's Livestock Center: Camel, Bison, Beef, Dairy ...

Lyme disease, also known as Lyme borreliosis, is an infectious disease caused by a bacterium named Borrelia spread by ticks. The most common sign of infection is an expanding area of redness on the skin, known as erythema migrans, that appears at the site of the tick bite about a week after it occurred. The rash is typically neither itchy nor ...
