A colorimeter is a device used in colorimetry. In scientific fields the word generally refers to the device that measures the absorbance of particular wavelengths of light by a specific solution. This device is commonly used to determine the concentration of a known solute in a given solution by the application of the Beer-Lambert law, which ...

A smoke detector is a device that senses smoke, typically as an indicator of fire. Commercial security devices issue a signal to a fire alarm control panel as part of a fire alarm system, while household smoke detectors, also known as smoke alarms, generally issue a local audible or visual alarm from the detector itself.

Smoke detector - Wikipedia

An ISO 9001 certified company, designs and manufactures a complete line of viscometers, electronic balances, scales, weighing indicators and controllers for pharmacy, laboratory, food service and industrial applications, as well as advanced electronic blood pressure monitoring equipment for both home health care and professional markets.
