Lobsters are widely fished around the world for their meat. They are often hard to catch in large numbers, but their large size can make them a profitable catch. Although the majority of the targeted species are tropical, the majority of the global catch is in temperate waters.

Lobster fishing - Wikipedia

Cattle stations in Western Australia, the Northern Territory and Queensland receive significant rain â€” thanks to not one but two cyclones.

ABC Rural - ABC News

Trepangers from the Makassar region of Sulawesi (modern day Indonesia) began visiting the coast of northern Australia sometime around the middle of the 1700s, first in the Kimberley region, and some decades later in Arnhem Land, to collect and process trepang (also known as sea cucumber), a marine invertebrate sea cucumber prized for its ...
