In social psychology, a stereotype is an over-generalized belief about a particular category of people. Stereotypes are generalized because one assumes that the stereotype is true for each individual person in the category. While such generalizations may be useful when making quick decisions, they may be erroneous when applied to particular ...

The New York artist enters his blue period. Gordon is best known for piling on colors and patterns in still-life photographs that begin with image searches online and result in paper sculptures of fruit, flowers, vases, and shadows – trompe-l'oeil tableaux, which he shoots with a large-format camera.
