If your Sony is anything like my 50" SXR in regards to the PC input, the PC input is pretty much useless. It's limited in resolution and it makes a border around the display if I'm not mistaken.

is VGA the same as RGB? - AVS Forum | Home Theater ...

The metalworking process may be illustrated by the first such adapter I made was some years back. This was for a Sony DSC-S30 digital camera, mounting to a Bausch and Lomb microscope.

Making Digital Camera Microscope Adapters - TrueTeX

A camera works with the light of the visible spectrum or with other portions of the electromagnetic spectrum. A still camera is an optical device which creates a single image of an object or scene and records it on an electronic sensor or photographic film.

Camera - Wikipedia

INTRODUCTION It's perhaps fitting that I write this introduction in jail- that graduate school of survival. Here you learn how to use toothpaste as glue, fashion a shiv out of a spoon and build intricate communication networks.
