Flake

flake

flake pdf

Flake is a term used in Australia to indicate the flesh of any of several species of small shark, particularly the gummy shark. The term probably arose in the late 1920s when the large-scale commercial shark fishery off the coast of Victoria was established.

Flake (fish) - Wikipedia

In archaeology, a lithic flake is a "portion of rock removed from an objective piece by percussion or pressure,": 255 and may also be referred to as a chip or spall, or collectively as debitage.

Lithic flake - Wikipedia
