Visual Fields AOA - Optometry's Meeting

Persistence of vision traditionally refers to the optical illusion that occurs when visual perception of an object does not cease for some time after the rays of light proceeding from it have ceased to enter the eye. The illusion has also been described as "retinal persistence", "persistence of impressions", simply "persistence" and other ...

Persistence of vision - Wikipedia

In 2013 I retired as director of the Laboratoire Psychologie de la Perception (LPP), which studies human perception both in babies and adults. Since then I have been pursuing a 5-year European Research Council Advanced project ("FEEL") on the sensorimotor approach to consciousness and "feel".
