SkyDemon Flight-Planning and Navigation User Guide

A direct flight in the aviation industry is any flight between two points by an airline with no change in flight numbers, which includes one or more stops at an intermediate point(s). A stop may either be to get new passengers (or allow some to disembark) or a technical stop over (i.e., for refuelling).

Direct flight - Wikipedia

The "fight or flight" response occurs when the body senses some imminent danger, something is perceived as a threat, and immediate action is needed.
