Many notable human fatalities have resulted from aviation accidents and incidents. Those killed as part of a sporting, political or entertainment group who flew together when the accident took place are usually only listed under the group sections; however, some are also listed as individuals.

List of fatalities from aviation accidents - Wikipedia

The integrated altitude encoder does not require connection to the aircraft static pressure system. Instead, skyBeacon benefits from being mounted in an ideal altitude sensing location, and contains Continuous Calibration™ technology.

skyBeacon™ uAvionix

A spin is a special category of stall resulting in autorotation about the vertical axis and a shallow, rotating, downward path. Spins can be entered intentionally or unintentionally, from any flight attitude if the aircraft has sufficient yaw while at the stall point.
